PROFILE SUMMARY

To work for an organization that provides me the opportunity to improve my skills and knowledge while contributing to the growth of the organization. I have 2 months of experience as a React.js trainee at Siam Computing, where I gained practical knowledge in React.js and built UI components and user interface page. I am a Java Full Stack Developer with 8 months of training and internship experience at Besant Technologies, equipped with a strong foundation in object-oriented programming and hands-on experience in building applications.

TECHNICAL SKILLS

- Front-end - HTML5, CSS3, JavaScript
- CSS Frameworks: Bootstrap, Tailwind CSS
- Front-end Frameworks: React.js, React Hooks, React Reusable Components, React Modules, React Icons
- Back-end- Core Java, Advanced Java, OOPS
- Database- MySQL, DBMS, RDBMS

WORK EXPERIENCE

Siam Computing, Chennai

ReactJs Trainee (On-Site)

April 2025 - Present

- Gained hands-on experience in building user interfaces using **React.js**, **Tailwind CSS**, and **Redux**.
- Built and executed daily tasks to strengthen component-based architecture and state management.
- Enhanced the **UI for an E-Commerce website** and live **Tejasvita Trust website**, focusing on responsive design and user experience.
- Learned and implemented **React Hooks** for efficient component logic and state handling.
- Collaborated in a team environment, following best practices for code quality and performance

PROJECTS

E-Commerce Website [🔗](#)

April-2025 - May-2025

- Developed a responsive e-commerce website using React.js (Vite), Tailwind CSS, and Figma design, optimized for all devices.
- Applied client-side authentication with protected routes, logout functionality, and React Router navigation handling.
- Built key pages (Login, Banner, Category, Product Details) with reusable components and dynamic routing.
- Created a mobile-friendly filter panel, product grid with pagination, and dynamic product data rendering.
- Expanded tab-based product info sections, interactive review cards, and a carousel for customer reviews.
- Designed a modular Cart system, responsive navbar, and deployed the project via GitLab and Netlify.

Key Skills: React.js, Vite, Tailwind CSS, Figma to Code Implementation, Responsive Design, React Router, Component Reusability, State & Props Management, Authentication, Pagination, GitLab.

- Developed the **Tejasvita Admin Portal** using React vite with responsive login, OTP verification, and password recovery pages.
- Implemented OTP input fields with for auto-tab and backspace support, and added a dismissible resend OTP pop-up using .
- Built a responsive dashboard with dynamic stat cards and a navigable sidebar using React Router.
- Developed Role and School Management features with dynamic routing (), context-based role addition, and school list pagination and deletion.
- Created a responsive User Management system with reusable form components and search/filter functionality.

Key Skills:React.js, Vite, Tailwind CSS, Figma to Code Implementation, Responsive Design, React Router, Component Reusability, State & Props Management, Authentication, Pagination, Useparams URL Hooks to navigate routes and useContext Hook.

- My React Weather App retrieves and displays real-time weather data for a given city using the OpenWeatherMap
- API. Built using React, Axios, and CSS, this app demonstrates a simple and intuitive weather application.
